3 Description

Book Creator creates an interesting and exciting learning environment for students. It provides an opportunity for students to engage in both creating creative stories and demonstrating what they have learned in current topic.

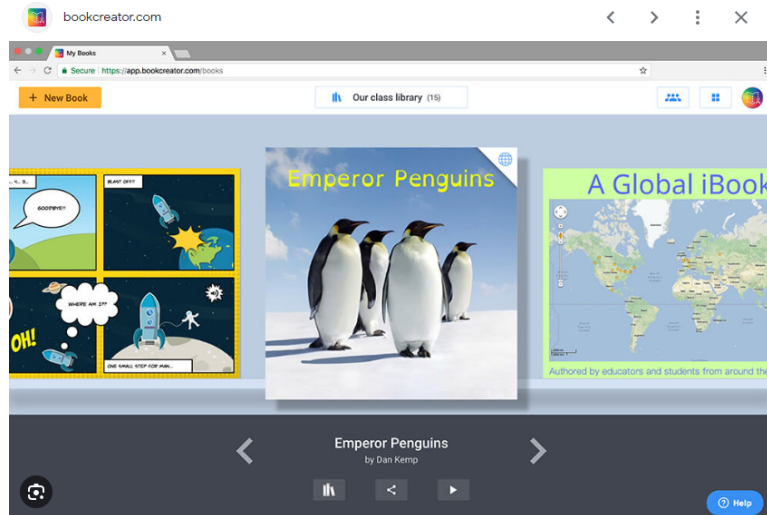

Students can upload images, chose from emojis, make recordings and videos and then share a finished book. Create basic interactivity such as touchable areas.

E-books can be in various forms – digital portfolios, comics, manuscripts etc. Copies of books can be exported to pdf format or the ePub format.

Educators can also use this tool to assign material to students in interactive book form to enrich students knowledge.

This tool also can be used in project-based learning, because it allow real-time collaboration for multiple students to create one book.

It gives students the opportunity to demonstrate their knowledge of topics related to climate change education in creative way – by creating e-books on various current topics and making them available to wider readership.

Limitations of the tool – The free version of Book Creator gives educators access to 40 books, but lacks some features of paid version including real time collaboration. Full version allows students to create up to 1000 books and also provides access to collaboration.
